Add: Okhla Jamiya Nagar (New Delhi)

PROFESSIONAL OVERVIEW

Motivated Web Developer with nearly 3 years of experience in developing client-side and full-stack web applications. Proficient in utilizing modern technologies including React.js, PHP, Laravel, and CodeIgniter to create dynamic, user-focused solutions that drive business growth. Recognized for delivering robust, scalable applications with precision and attention to detail. Demonstrates a strong commitment to continuous learning and effective teamwork, with a focus on innovative problem-solving and staying ahead of technological trends.

WORK EXPERIENCE

Ara web technology pvt ltd. Full stack Development

March 2024 - current

Worked as a Full Stack Developer and Designer, creating efficient, effective, and visually appealing websites for clients using PHP Laravel, CodeIgniter React js, Html, Bootstrap, Css, WordPress, and Graphic design tools. Collaborated closely with clients to understand requirements, review design Concepts, and develop process flowcharts to streamline development workflows. Built responsive and dynamic front-end interfaces using React.js, ensuring seamless user experiences and optimized performance across devices.

- Developed and maintained custom frameworks and backend logic using PHP and CodeIgniter, improving scalability and reducing production time.
- Designed and maintained the Foundation Website, ensuring user-friendly layouts and timely updates to reflect ongoing projects and events.
- Enhanced user experience through improved navigation, faster load times, and mobile responsiveness, resulting in increased online engagement.

Capital Technology Pvt Ltd Web developer and Graphic Designer

January 2023 - February 2024

- Developed Custom Web Solutions: Designed and implemented visually appealing, responsive websites tailored to business goals, improving user engagement.

- Created and assisted with the design, development, and support of new and existing secure websites and web applications.
- Conceptualized, created, and managed dynamic web pages for data display and entry using appropriate technologies (Php, Laravel , React.js, html, Css, Javascript, Bootstrap, WordPress, Adobe Photoshop, CorelDRAW, Canva).
